Dealer Information

Welcome to Halse South West

Founded over 100 years ago and run today by Philip Halse who is the fifth generation of the Halse family to run the business. We specialise in Farm Machinery and Implements. These we buy and sell in bulk- supporting them with spares and service. Because we concentrate on MACHINERY and not on Tractors and Telehandlers we are one of the largest sellers of the top makes of machinery and can quote very keen prices.
